CEO DESK

Welcome to RK Group!

It gives me immense pride to introduce you to who, we are and what we stand for. At RK Group, we believe that excellence isn't just a goal, it's a way of life. From our first project to the latest innovation, our mission has always been the same: deliver quality, ensure safety and build trust.

We know that behind every product, every project and every partnership, there are people - customers, employees, and partners. It's your trust that drives us forward. Whether it's our electrical panels, bus ducts, earthing, cable trays, or solar structures. We design and deliver with your success in mind, ensuring top performance, reliability and efficiency.

But we also know that true success goes beyond business. Through RK Foundation, our philanthropic arm, we work to make a positive difference - supporting education, healthcare and opportunities that uplift communities. Because we believe that when people grow, businesses grow.

To all our valued customers, partners, and team members thank you. Your belief in RK Group fuels our passion to keep raising the bar. Together, let's continue to shape a future built on innovation, excellence and shared progress.

Thank you for being part of the RK Group family.

Sincerely,

Rajendra Kumar Shukla
Founder & CEO
RK Group of Companies

Core Value

R K Group of Companies Founded by Shri Rajendra Shukla in 2011, R K Group provides a full range of products and services related to manufacturing industries & Commercials. We scale our performance with our credibility and trust. We remain inspired by our vision for innovation to fulfill our customer needs. We offer state-of-the-art manufacturing unit for solutions and customized products to the industry.

Corporate Mission

To build long term relationships with our customers and clients and provide exceptional customer services by pursuing business through innovation and advanced technology.

Our Vision

To be a leading and preferred service provider for electrical Power System Conceptual Design, System Study and Solutions in the world by targeting beyond Customers expectation and satisfaction.

Core Values

We believe in treating our customers with respect and faith. We grow through creativity, invention and innovation. We integrate honesty, integrity and business ethics into all aspects of our business functioning.

Quality

We believe in providing quality products at competitive price & state-of-the-art commissioning of our product at customer's choice.

RK INFRAA

Authorised franchisee of
Lauritz Knudsen IEC61439
Energys Panels & 11KV/33KV
VCB panels

ELECTRICAL PANEL (LT & HT)

We are specialized in designing and manufacturing top-quality electrical panels that meet the highest standards of reliability, safety, and efficiency. Our state-of-the-art manufacturing facility is equipped with advanced technologies and staffed by a team of experienced professionals who share our commitment to excellence.

- VFD & PLC Panels
- PCC & MCC Panels
- Control and Relay Panels
- Main Distribution Board (MDB)
- Control Desk
- Automatic Power Factor Control (APFC) Panels
- AMF Panels
- Lighting Distribution (LDB) Panels
- Feeder Pillar Panels
- Synchronizing Panels
- DG Panels
- Auto & Load Sharing Panels
- Meter Board & Junction Box
- RTU Panel

Key Features

- Manufacturing Modular Panel
- 11 Tank Processed Assembly
- Laser Welding
- Laser Cutting
- Quality Check Department
- CPRI Approved
- IEC - 61439-1 & 2
- IP 65 Certified

RK INFRAA

**Dielectric Test Certified
Temperature Rise Test Certified - 6300A**

BUS DUCT

Air Insulated & Bus Bar Trunking (BBT)

- ✓ Operating Voltage- Upto 1000VAC.
- ✓ Rated Frequency 50/60Hz.
- ✓ Insulation Voltage 690V/1100VAC.
- ✓ Short Circuit Capacity Upto 160kA for 1sec.
- ✓ Confirming Standard IEC61439-1 & 2
- ✓ Impact Resistance Ik07.
- ✓ Degree of Protection Ip55
- ✓ Insulation thermal Class F
- ✓ Available in Copper or Aluminum.

Industries Application

Majorly Used in all over the Global.

- ✓ Power Plant Industries.
- ✓ Steel Industries
- ✓ Cement Plant Industries.
- ✓ FMCG
- ✓ Pharmaceutical Industries.
- ✓ Spinning Industries.
- ✓ IT Sector
- ✓ Real Estate Building Segment

CABLE MANAGEMENT SYSTEM

Introduction

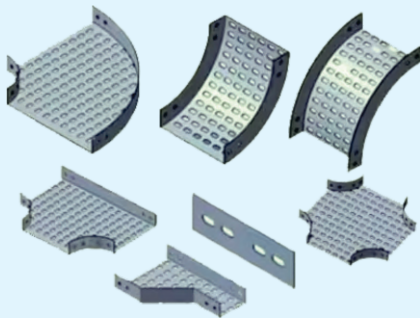

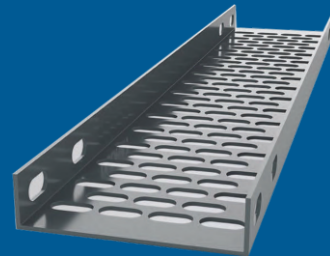

We are manufacturing all types of cable tray like Perforated, Ladder, Raceway/Box Type, Cable Duct (Pre Galvanized, Hot Dip Galvanized, MS, SS, Aluminium, Powder Coated and Painted), with all accessories of cable tray and provide all related supporting accessories as per customer's requirements. we have also export our material to out of country.

Features:

- Our Cable Tray Helps in Carrying Cable through separate Channels.
- High strength
- Easy installation
- Corrosion resistant
- Optimum quality

Embossed Trays

Embossed cable trays are available in various thicknesses of 1.0mm, 1.2mm, 1.5mm and 2.0mm and in width 100mm to 600mm in standard length of 2.4m/2.5m/3.0m/6m. They are available in various material of construction

Perforated Trays and Accessories

Perforated cable trays and accessories are available various thicknesses of 1.2mm, 1.5mm, 2mm and above in width 50mm to 900mm, in standard length of 2.4m/2.5m/3.0m. They are available in various material of construction like M.S., S.S. and Aluminum.

Ladder Trays and Accessories

Ladder type cable trays and accessories are available in various thicknesses of 1.5mm, 2.0mm and above in 150mm to 900mm and length of 2.4m/2.5m/3.0m/6m are available. They are available in various material of construction like M.S.S.S. and Aluminum.

Aluminum Tray and Accessories

Ladder type cable trays and accessories are manufactured from extruded section in width from 150mm to 900mm and length up to 6m. FRP Trays and Accessories FRP cable trays and accessories in Perforated type as well as Ladder type for corrosive industry application.

CHEMICAL EARTHING

R.K. Infraa Manufactures Innovative, safe, corrosion resistant and durable Earthing Systems. RK-ECO Earthing Cost Effective Solution for all grounding requirements. we Providing the Best Quality Grounding System to our valuable clients. Over the years, we have been able to offer state of the art corrosion free grounding system ideal for all types of soil conditions and environments. Our products have helped our customers to save resources by preventing damage to costly equipment and increase productivity by eliminating unnecessary downtime.

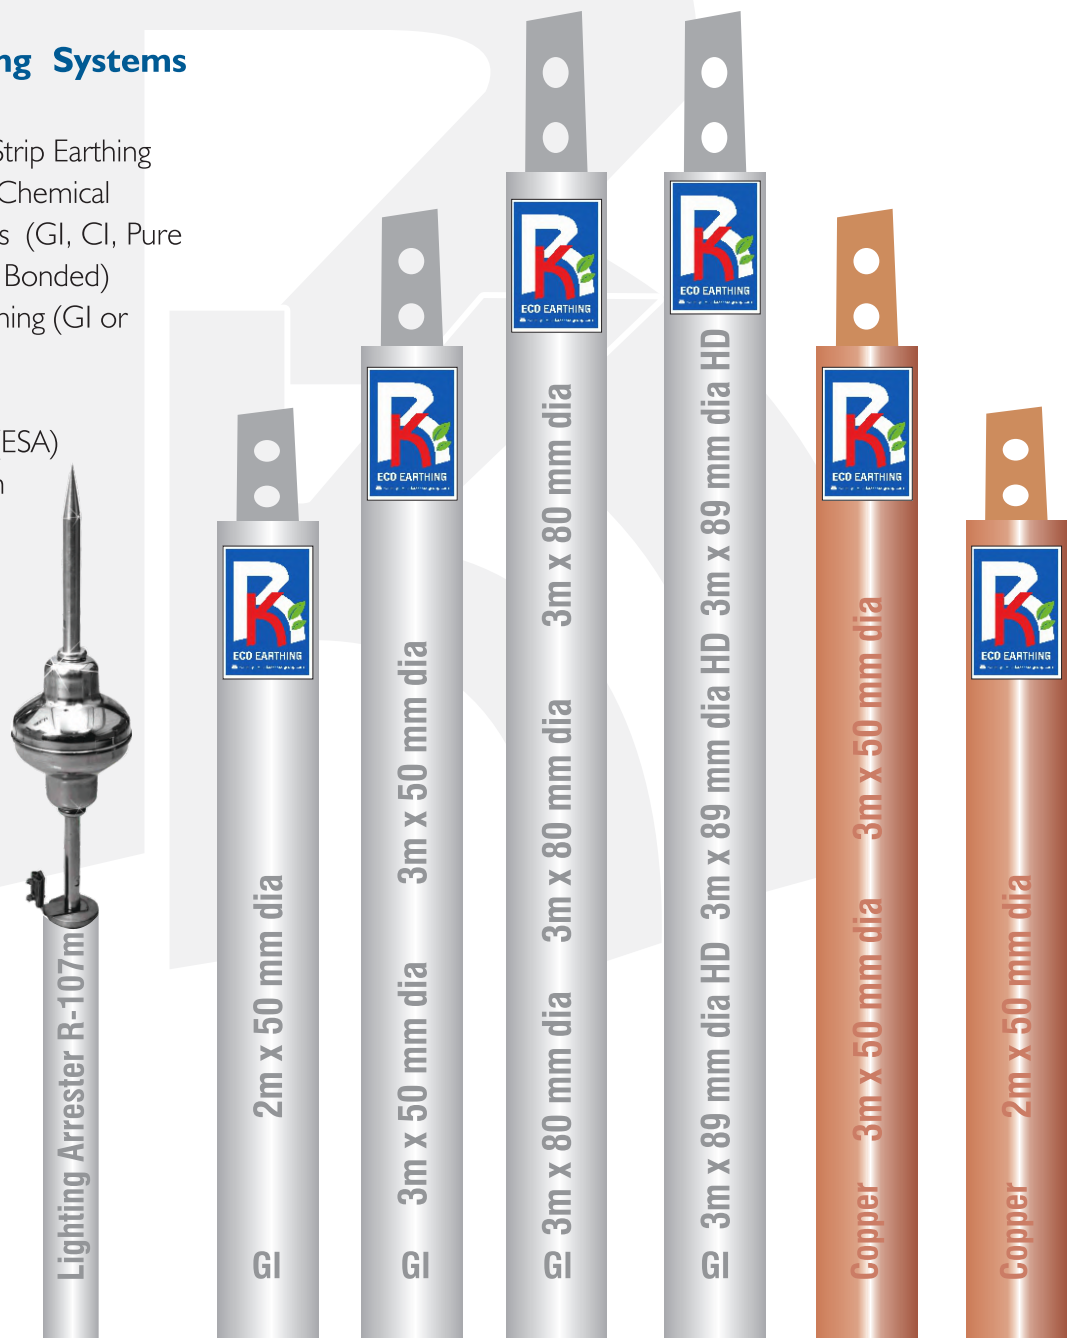

Benifits of RK-ECO Chemical Earthing Electrodes :-

- Advance Earthing Solution
- Requires Less Space for Installation
- Maintenance Free
- Low Resistance Value
- It Helps In Faster Dissipation Of Fault Current
- Eco Friendly
- No Fluctuation in Resistance
- Corrosion Free
- Long Life – Just Fit & Forget
- Absorbing & Retaining Moisture For A Long Period

Types of Earthing Systems

We Provide:

- GI Strip / Copper Strip Earthing
- Maintenance-Free Chemical Earthing Electrodes (GI, CI, Pure Copper & Copper Bonded)
- Plate and Pipe Earthing (GI or Copper)
- Earthing Pit cover
- Lightning Arrester (ESA)
Max. Radius 107 m

ELECTRICAL TESTING & RETROFITTING

Relay Retrofit Solutions, Protection System & Schemes Testing

1. Pre-commissioning activities & Start-up Support.
2. Complete Switchgear & Protection Scheme Testing.
3. Testing of Protective Relays.
4. Relay Retrofit Solutions.
5. Configuration/Programming of Relays.
6. Testing of CT's & Pt's.
7. Transformer oil purification and testing.

OMICRON-CMC356
The Universal Relay Test Set and Commissioning Tool

Hi-Pot Test Kit & Surge Generator

- Testing power cables, switchgear, surge arresters, bus bars, insulators
- Detecting insulation damage, improper terminal spacing, stray wires
- Validating safety circuits in wire harnesses and custom cable assemblies
- Locate Cable Faults

30Kv DC Injection & Surge Generator

CRM Test Kit & Time Test Kit

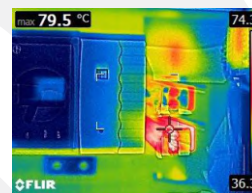

- Testing circuit breakers, isolators, busbars, cables, and joints.
- Detecting bad or corroded contacts that lead to higher losses and hot spots.
- Preventive maintenance in substations and industrial settings.
- ACB /VCB Brecker Opening & Closing Time Test.

Time Test Kit

Thermography Camera & Harmonic Analyser

- High Precision Temperature Measurement.
- Advanced Imaging.
- Real-Time Monitoring.
- Non-Contact & Non-Destructive.
- 24h, 12h, 6h, Harmonic Study & Solutions

Thermal Image Camera

Engineering and Testing Services

Simulation Studies

01. Load Flow Study
02. Short Circuit Study
03. Relay Coordination Study
04. Harmonic Study
05. Arc Flash Study
06. System Grounding
07. Dynamic Motor Starting Study.
08. Dynamic Motor Re-acceleration Study
09. Transient Stability Study
10. Lightning & Switching Transients Study
11. Insulation Coordination Study
12. Transformer Energizing Study
13. Transient Recovery Voltage Analysis for Cbs
14. Fast Motor Bus Transfer Simulations
15. Capacitor/Reactor/Line Switching Study
16. Study for Resonance & Ferro resonance Conditions
17. Branch Switching Study

TRANSFORMER OIL FILTRATION

Capacity: 6000 & 1200 LPH (Liters Per Hour) with built - in BDV Test Kit

Typical Applications

- On-site transformer oil purification (live or offline)
- Removing moisture, gases, and particulate contaminants from transformer oil
- Restoring dielectric strength of aged transformer oil
- Used in power plants, substations, ESP and heavy industries

Main Benefits of Transformer Oil Filtration

1. Removes Moisture (Water)

- Moisture reduces dielectric strength of oil.
- Causes paper insulation aging and risk of internal flashover.
- Filtration + vacuum dehydration can reduce moisture to very low ppm.

➤ Result: Better insulation & fewer breakdowns

2. Removes Dirt and Solid Particles

- Removes carbon, dust, metal particles.
- Particles can cause partial discharge and arcing.

➤ Result: Lower chance of internal faults

3. Improves Dielectric Strength (BDV)

- After filtration, BDV value increases significantly.
- Healthy oil should have BDV > 60 kV (for new oil) and > 40 kV (in service) depending on standards.

➤ Result: Transformer can safely withstand high voltage

4. Slows Down Aging of Insulation

- Clean and dry oil protects cellulose paper insulation.
- Extends overall transformer life.

➤ Result: Longer service life, delayed replacement

5. Reduces Sludge Formation

- Removes oxidation products.
- Sludge blocks cooling ducts and increases temperature.

➤ Result: Better cooling and lower operating temperature

6. Prevents Costly Failures

- Reduces chance of winding failure and tank rupture.
- Avoids long outages and expensive repairs.

➤ Result: High reliability and lower maintenance cost

7. Restores Old Oil for Reuse

- Oil does not need to be replaced frequently.
- Filtration + regeneration makes oil usable again.

➤ Result: Big savings on oil and disposal

We 'RK Engineering Corporation', pleased to introduce ourselves as a young & vibrant organisation representing reputed principles 'ION Exchange (India) Limited' for supply, erection & commissioning of Water & Waste Water Treatment plants & Chemicals in Industries.

Ion Exchange Ltd offers a wide range of products and solutions for water, wastewater, solid waste, and air treatment. Their product range includes¹:

Engineering Products:

- DM plants.
- Water treatment plants.
- Wastewater treatment systems.
- Zero liquid discharge systems.
- Sewage treatment plants (STP).
- Packaged drinking water systems.
- Sea water desalination plants.

Resins :

- Ion exchange resins for water and wastewater treatment
- Specialized resins for industrial applications

Membranes:

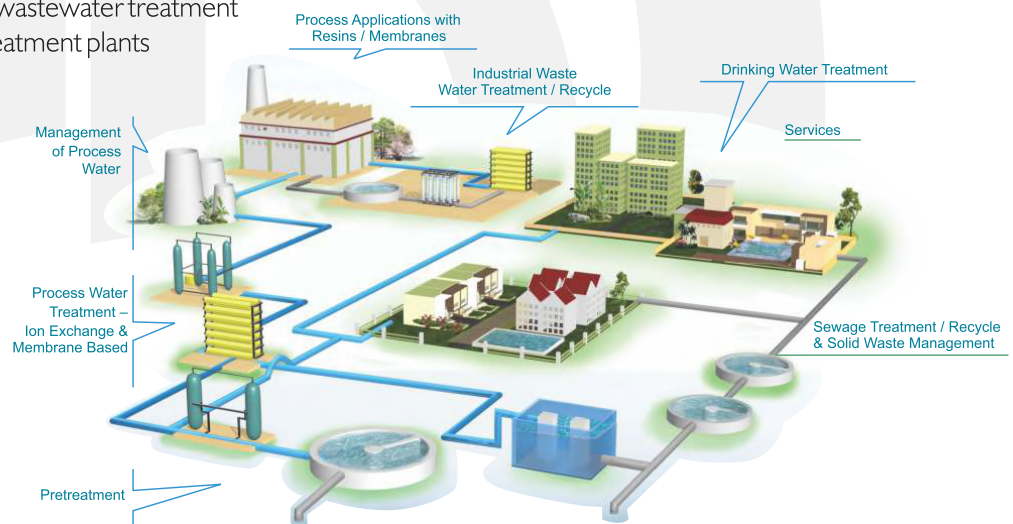

- Hydramem - high-performance membranes for water and wastewater treatment
- Membranes for industrial applications

Speciality Chemicals:

- Chemicals for water and wastewater treatment
- Industrial chemicals

Instruments and Automation:

- Instruments for water and wastewater treatment
- Automation systems for treatment plants

They also offer various services, including operation and maintenance, rehabilitation and modification, consumables and spares, audits and consultancy, project financing, and remote monitoring systems¹.

RK ENGINEERING CORPORATION

Complete Solar EPC Solutions (1 kW – 100 MW)

RK Engineering Corporation is a trusted name in renewable energy, delivering end-to-end Solar EPC solutions for residential, commercial, industrial, and utility-scale projects. As an Authorized Channel Partner of Tata Power Solar, we ensure high-quality, reliable, and future-ready solar power systems with a single-window solution approach.

Our EPC Services

- Engineering & System Design
- Civil, Structural & Electrical Works
- Installation & Commissioning
- Net Metering & Statutory Approvals
- Operation & Maintenance (O&M;)

Project Capacity

- Residential Rooftop: 1 kW – 10 kW
- Commercial Rooftop: 10 kW – 500 kW
- Industrial Solar Plants: 500 kW – 10 MW
- Utility Scale Projects: 10 MW – 100 MW

Solar Solutions Offered

- Rooftop Solar Power Plants
- Ground Mounted Solar Plants
- Industrial & Warehouse Solar Solutions
- Solar Car Parking Structures
- Solar Tracking Systems

Why Choose Us

- Authorized Tata Power Solar Partner
- Single Window EPC Solution
- High Quality Engineering & Execution
- Timely Project Delivery
- Reliable After-Sales Support

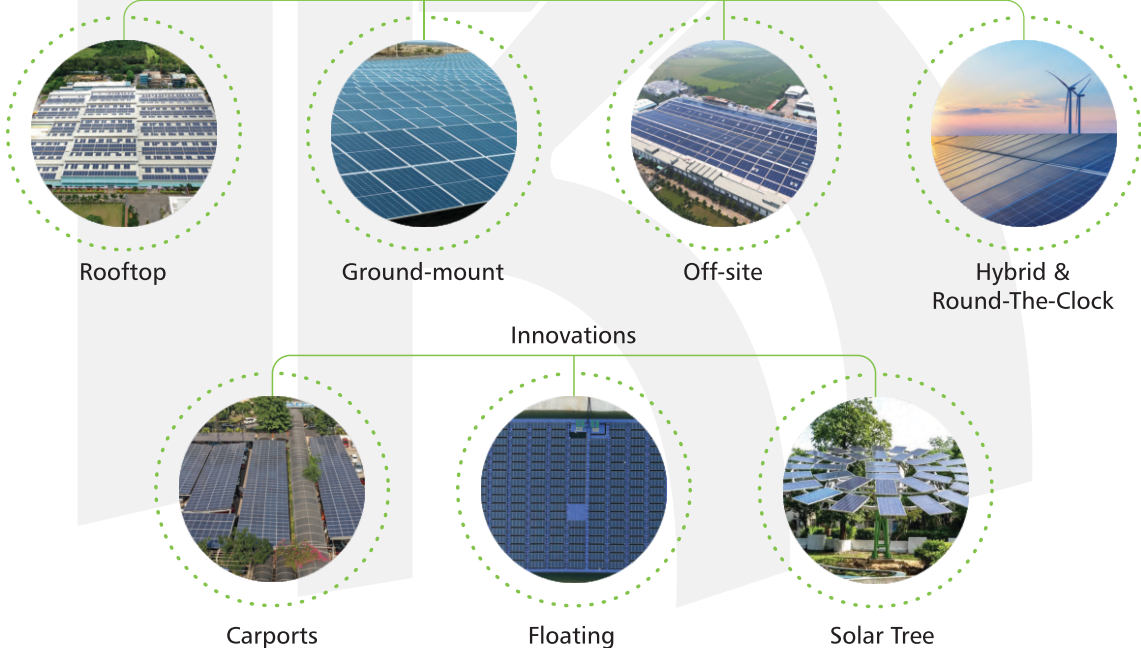

TATA POWER RENEWABLE ENERGY

INNOVATIVE SOLUTIONS FOR LARGE ENTERPRISES

Go Green with our range of Renewable Energy Solutions including Solar, Wind, Hybrid, Pumped Storage and Battery Storage Solutions.

OUR RENEWABLE ENERGY SOLUTIONS PORTFOLIO

Enterprise Green Energy Solutions addressing Scope 1, 2 and 3 needs

Multi-sector Experience

LT & HT MOTORS

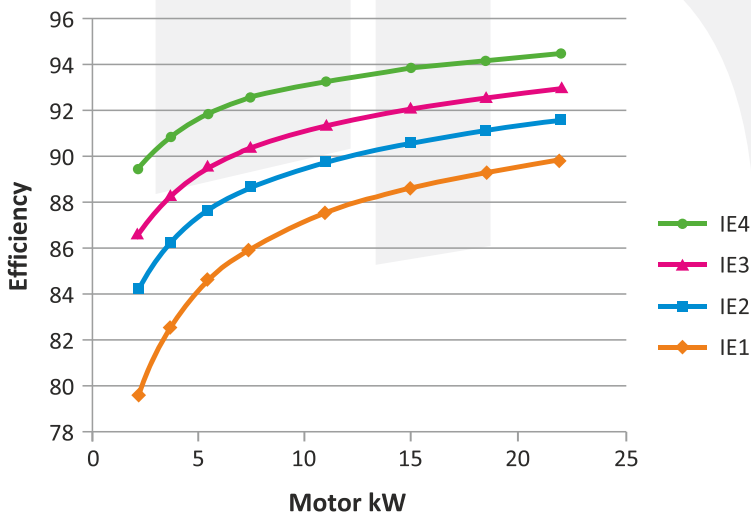

The industrial accounts for over half the total electricity consumption, of which 60 to 70% is utilized by electric motors. This indicates that the electric motors consume more energy than any other application. We are Dealing with energy efficient motors IE2, IE3 and IE4.

- LT Motors
- HT Motors
- DC Motors
- Slip-Ring Motors
- Flame Proof Motors
- Crane Duty Motors
- Brake Motors
- Inverter Duty Motors
- Cooling Tower Motors
- Mill Duty Motors
- Textile Motors
- Cooling Tower Motors
- Motor Spares
- Vibration Motors
- Traction Motors

Standard Motor

Comparison of Motor Efficiency classes

Efficiencies of IE4 is 5 to 12% higher than IE1.

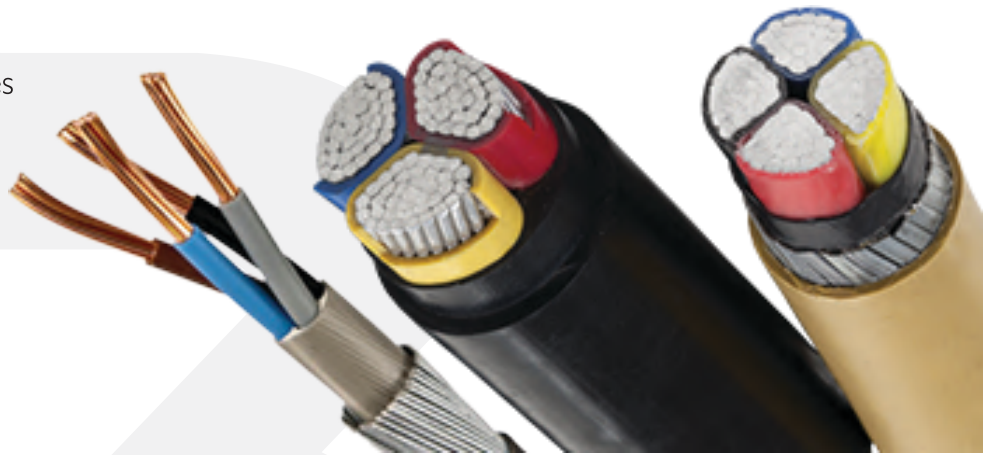

HT Motor

LT & HT CABLES

- Power Cables
- Control Cables
- Instrumentation Cables
- Fire Survival & Fire Alarm Cables
- CCTV Camera Cables
- Submersible Flat Cables
- Servo & Drag Chain Cables
- Silicon Cables
- Solar Cables
- Auto Cables
- Welding Cables

AE Automatic Electric

Automatic Electric Ltd. is a renowned and leading manufacture catering to a wide range of Electrical Measuring Instruments and Power System Equipments. AE was established ub 1942 and from its inception, because of its innovation & quality conciseness AE had always set new bench mark in the field of Electrical Measuring Instrumentation, Power systems and Instrument Transformers.

CONTROLAIR™
INTELLIGENT FLOW CONTROL
Intelligent Energy Saving in Compressed Air System

ROOTS
ADDING VALUE

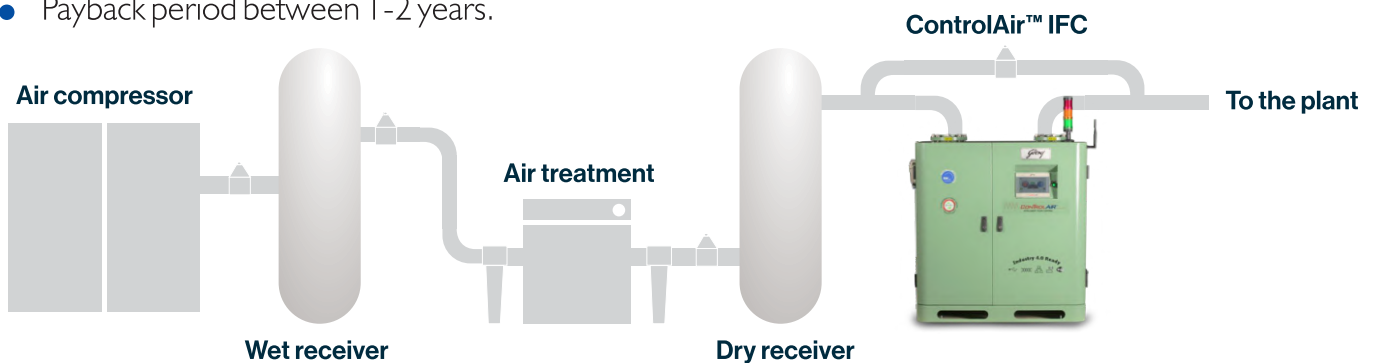

INTELLIGENT FLOW CONTROLLER (IFC)

Compressed Air is considered as the industry's 4th utility and 10% of worldwide electricity consumption equals to current usage of compressed air in various industries and this percentage is continuously growing. Due to the inefficiencies in Compressed air system it is considered as one of the most expensive form of energy.

IFC is a patented product of Godrej & Boyce. ControlAir™™ IFC, our engineered product that is used across manufacturing industries for efficiency improvement of Compressed Air System through energy saving, stabilizing fluctuating pressure and reducing losses.

ADVANTAGES

- Reduces artificial demand by controlling the air flow & pressure delivered to plant.
- Air is supplied at a controlled differential and optimum pressure to plant, which reduces the mass of air consumed by pneumatic equipment, tools and amount of leakages, which ultimately result in the reduction in energy consumed by Air compressors.
- Saves Compressed Air Energy by 4~25% through reduction in artificial demand.
- Reduction in compressed air leakages.
- Payback period between 1 -2 years.

Typical Installation of IFC in a Compressed Air System

ROOTS CLEANING EQUIPMENT

SWEEPERS | SCRUBBER-DRIERS | VACUUM CLEANERS
 CARPET CARE | PRESSURE WASHERS | STEAM CLEANERS
 CITY CLEANERS | JANITORIAL | DETERGENTS & PADS

MATERIAL HANDLING EQUIPMENT (MHE)

We are Authorized Dealer of Godrej (MHE) for equipment, spares and services. Godrej is India's largest manufacturer of forklifts. Our range includes electric and diesel forklifts up to 25 tonne capacity, warehouse trucks and special trucks for specific applications. We also manufacture attachments of our own design for addressing a wide range of handling applications besides offering attachments made by international specialists in the field when the application demands.

Products :

- Diesel Forklift
- Electric Forklift
- Tyre Handler Forklift
- Stackers
- Hand Pallet Trucks
- Aerial work platform
- Special Forklifts

Services

- Spare Parts and Technical Assistance
- Training
- Operations and Maintenance Contracts (OMC)
- Annual Maintenance Contracts (AMC)
- Overhauling & Upgradation
- Buyback Packages & Equipment on Hire
- Preventive Maintenance
- Engine and Transmission Over Hauling
- Forklift Up gradation

Shanthi Gears

SHANTHI GEARS

Shanthi Gears is the unique gateway to a wide range of power transmission products which includes gears, gear boxes, geared motors and gear assemblies both standard and custom-made.

Introduction

- Only gear company in India having AS 9100C certification (Aero Standards)
- Fully integrated operations with strong in-house R & D and design capabilities
- Most modern & largest CNC-controlled pit type carburizing heat treatment plant in India
- Gears from a few mm dia to 3,200 mm dia
- Supply of spares for any make gear box

Facilities available in-house:

- Foundry, Forging and Fabrication
- CNC turning / machining , Hobbing, Gear profile grinding and testing
- Heat treatment
- Metrology & Calibration

Standard

- Worm Gear Boxes
- Helical & Bevel Helical Gear Boxes
- Geared Motors
- Planetary Gear Boxes
- Shaft mounted Gear Boxes
- Cooling Tower / Extruder / Rolling
- Mill Gear Boxes
- FLS System

Custom Built

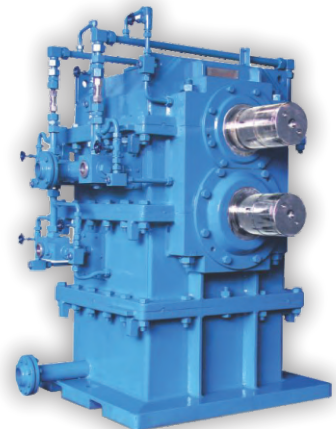

- Loose Gears Spur / Helical Gear
- Pinion Shaft
- Internal Gear
- Worm and Wheel
- Straight & Spiral Bevel Gear
- Spares for Gear boxes
- Special Gear Boxes for industries like:
Steel Cement , Mining , Power

Services

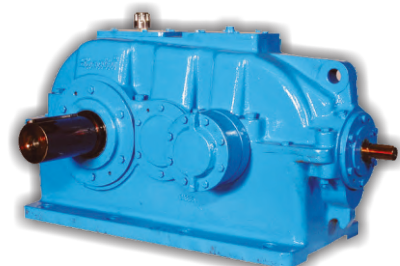

- Health Check & Reconditioning of gear boxes.
- Re-engineering of existing gears.
- Servicing of any make Gearboxes in-house / at site.
- Offline & Online Condition Monitoring
- Maintenance Contracts

Geared Motors

GEAR SERVICE BY RK

We at RK Engineering Corporation, provide service solution as condition monitoring, refurbishing & on job training as well class room training to our valuable customers.

We are having vibration meter VIB-15 of SPM to record vibration readings in all three directions (Horizontal / Vertical / Axial), which helps to build a strong data base to prevent premature failure in any of the gearbox by planning preventive maintenance schedule.

The VIB 15 vibration meter is a portable tool for industrial condition monitoring, working by using an accelerometer to measure machine vibrations and display them in Acceleration, Velocity, or Displacement modes, showing RMS, Peak or Peak-to-Peak values, and also featuring a laser tachometer for RPM and non-contact temperature sensing. It helps diagnose faults like imbalance, misalignment, or bearing wear by converting vibration energy into readable data, allowing technicians to assess machine health against standards like ISO 10816 for predictive maintenance.

Key Benefits of condition monitoring:

- Early Fault Detection
- Reduced Unplanned Downtime
- Lower Maintenance Costs
- Extended Equipment Lifespan
- Improved Safety
- Enhanced Efficiency and Performance
- Data-Driven Decision Making
- Liability Protection and Compliance

APAR
Tomorrow's solutions today

POWEROIL®
Powering Ahead

POWEROIL INDUSTRIAL OILS

THE POWER TO PROTECT INDUSTRIAL EQUIPMENT FROM WITHIN

We manufacture a wide range of industrial, automotive and specialty lubricants at our state-of-art blending plants at Rabale, under SCADA controlled operations accredited with ISO 9001: 2008 & ISO 14001: 2004 quality systems providing high accuracy blending. Our quality control laboratory is accredited with NABL and is approved by DSIR.

We offer a comprehensive range of speciality oils and lubricants (with 150+ grades) to suite our customer's needs. Our product offerings include:

- Hydraulic Oils
- Long Life Turbine Oils
- Metal Working Fluids
- Automotive Engine Oils
- Glass Mould Oil
- Thermic Fluids
- Gear Oils
- Cylinder Oils
- Machinery Oils
- Automotive Gear Oils
- Shuttering Fluids
- Industrial and Automotive Greases
- Compressor Oils
- Refrigeration Oils
- Wire Drawing Oils
- Transmission Fluids
- Quenching Oils
- Other speciality industrial oils for

specific applications All our products meet the latest BIS and international standard specifications. These Lubricants are manufactured utilizing advanced technology hydro-treated and hydro-cracked base oils, which give distinct advantage. The well-equipped sophisticated laboratory at our Rabale plant includes special testing equipment like trace metal analyzer, FTIR, UV analyzer, particulate counter, cold cranking simulator, salt spray testing, foaming & emulsion test apparatus, air release value and 4 ball weld load testing equipment and more, to offer effective pre and post sales services to our customers. On-line vacuum and micro filters are also part of our production systems, which ensure clean and super clean oils meeting the stringent ISO 4406 classification advantage in performance over similar products made utilizing conventional base oils.

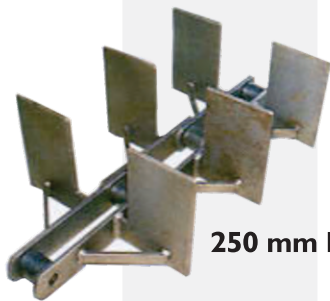

RK ENGINEERING CORPORATION

TI DIAMOND CHAIN LTD.

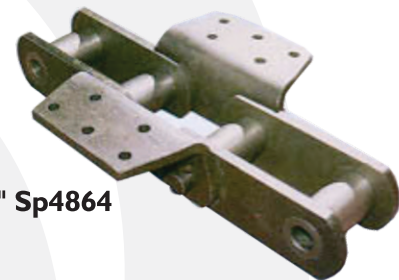

TI Diamond Chain Ltd, is a member of the highly diversified Murugappa. The Company was established in 1960 in collaboration with Diamond Chain Company USA. The ongoing collaboration has resulted in constant inflow of latest chain technology. The continuous pursuit of excellence in quality has resulted in market leadership in the chain industry.

PRODUCT RANGE FOR INDUSTRIES

- Bucket Elevator Chains
- Reclaimer Chains
- Apron Feeder Chains
- Deep Pan / Bucket Chains
- Flow Conveyor Chains
- Retrofitting of Bucket Elevator for capacity enhancement
